Sedum floriferum "Weihenstephaner Gold"	2-4 (50-100)	yellow	early-mid summer
Sedum kamschaticum	4-6 (100-150)	yellow	mid summer

Features

- application from spring until autumn possible
- engineered and proven plant lists
- fast coverage of substrate
- superb solution for large scale roofs
- quick and easy installation
- combination with plug plants possible

Installation Instructions

Apply Sedum Cuttings in the recommended application rate in the Growing Media Zincoblend E. A sufficient

watering is recommended. Please observe the recommendations of the handling instructions in shipment.

Health and Safety

This product does not require a material safety data sheet (MSDS) according to the OSHA Hazard Communication Standard (29 CFR 1910.1200). When used as recommended or under ordinary

conditions, it should not present a health and safety hazard. However, an MSDS can be provided as a courtesy in response to a customer request.
